

Dear Renaissance families,

I hope that you and your family are safe and healthy during this challenging time.

Yesterday, Governor Baker announced the closure of all schools in the state until May 4, 2020. We received some guidance from the Commissioner of Education this afternoon about what remote learning might look like during this extended period of time. Our leadership team and teachers are going through the guidance this week and early next week and will make any needed adjustments to the remote learning that your children have been engaged in since our closure. We will communicate any changes to you next week.

We have been so excited to see so many of our students logging into Google classroom and class websites and engaged in learning. If you are having any difficulties accessing education materials please reach out to your classroom teacher [HERE](#) or Mrs. Lueken (klueken@brcps.school), Lower School Director (grades K1 - 2 or Ms. Assiraj (fassiraj@brcps.school), Upper School Director (grades 3-6).

Any family that is in need of a chromebook, and has not previously contacted your child's teacher, please complete this [form](#).

These are challenging times for sure and we want to assure you that we are here to support not only your children but you as well. You can contact Mrs. Monique Taylor, Family and Partnerships Coordinator at mtaylor@brcps.school if you have any needs. You can also email me anytime.

We will be in touch next week with our long term remote learning plans.

Be well,

Ms. Buckmire
Head of School
